No. S. P. C. 3829-48, *dated 7th September* 1931.

To

The Firms dealing in Overhead Ground Wire.

Gentlemen,

Overhead Ground Wire.

Please be good enough to intimate your best prices delivered c.i.f., Madras, for the wire described below :—

Miles 20.—Special galvanized Siemens Martin Standard Overhead Ground Wire 3/8" dia., manufactured strictly according to the standards of B.E.S.A. No. 183—1927. The wire should consist of seven steel galvanized strands (·125" diameter) twisted into a single strand and double heavy galvanized breaking strength of wire not less than 6,800 lbs., elastic limit 50 per cent, elongation in 24" being 10 per cent. The wire to be supplied *in full lengths of one mile, packed on drums.*

N.B.—The wire should satisfactorily stand the tensile and elongation tests as required by the B.E.S.A., or the A.S.T.M. Standards in addition to the galvanising test.

Should an order be placed with you, you will be required to cable the order to your works and arrange for the immediate shipment of the wire. The earliest time within which you can arrange for the material being delivered at Madras should, therefore, be clearly specified.

The makers of the wire quoted for and the net weight thereof per mile should also be specified.

This enquiry will be closed on the 16th September 1931.

Yours faithfully,

M. S. RAMCHENDRA RAO,

Secretary, Stores Purchase Committee.
